Kharadar, Karachi, Pakistan

EDUCATION

Graduation
Government College of Commerce & Economics
In Progress

Intermediate
Government College of Commerce & Economics
2022 - 2024

Matriculation
Raza Foundation School
2021 - 2022

SKILLS

- MongoDB
- Express.js
- React.js
- Amazon Web Services
- Node.js
- Next.js
- Stripe
- RESTful APIs
- Responsive Web Design
- Firebase
- Advance JavaScript
- Socket (Front-Backend)

ABOUT ME

I am a proficient MERN stack developer with a strong passion for building innovative and scalable web applications. Skilled in MongoDB, Express.js, React.js, and Node.js, I specialize in developing dynamic user interfaces and implementing robust back-end solutions. With a meticulous approach to clean and efficient code, I thrive on solving complex technical challenges. Constantly staying ahead of industry trends, I am committed to delivering high-quality digital experiences and contributing to the success of forward-thinking projects.

EXPERIENCE

Sid Techno
Mern Stack Developer
MAR-2024 - PRESENT

As a skilled MERN Stack Developer, I have designed, developed, and maintained dynamic web applications using MongoDB, Express.js, React.js, and Node.js. My expertise includes building RESTful APIs, developing interactive front-end components, and ensuring seamless integration between backend and frontend systems.

Key achievements and responsibilities:
- Developed and optimized scalable, high-performance web applications.
- Implemented Firebase Realtime Database for real-time data synchronization.
- Integrated Firebase Push Notifications for mobile user engagement.
- Designed and built a full-fledged live chat web with socket handling both front-end and back-end development.
- Utilized AWS S3 for efficient image storage and management.
- Implemented Google Sign-In authentication using Next.js.
- Integrated Google Maps services for enhanced location-based functionalities.
- Developed fully responsive websites, ensuring seamless user experiences across various devices.
- Collaborated with cross-functional teams to enhance system performance and usability.

Constantly staying updated with emerging technologies, I am committed to writing clean, maintainable code and delivering innovative solutions that drive business success.

Sid Techno
Mern Stack Internship
DEC-2023 - FEB-2024

I successfully completed a dynamic 3-month internship in MERN stack development, where I worked on diverse projects, gaining hands-on experience in both front-end and back-end development. During this time, I contributed to building responsive and user-friendly web applications while collaborating with a talented team. I worked extensively with JavaScript, HTML, CSS, and various modern frameworks, gaining practical experience in Node.js for back-end development and strengthening my understanding of server-side technologies. Additionally, I explored the basics of Angular to enhance my front-end skills and focused on optimizing fully responsive websites for seamless user experiences. This internship not only strengthened my technical expertise in database management and web development but also enhanced my problem-solving abilities and teamwork skills in a real-world development environment.
